

How to Test Your Campaigns When you Create One Never Assume that your new campaign is all set until you test it.

OK, You have created a new campaign for your Internet Marketing project and are anxious to start promoting it. That's great! However, before you start spending time, effort and money on promoting it you need to test it to make sure all links, and the messages are correct.

Just because you created a new shared campaign like the ones I set up to copy, does not eliminate the potential for a mistake somewhere. It could be mine, but I have seen errors in putting in the correct program ID, email addresses, and especially the links.

Let's use the example of the R4R shared campaign I gave instructions in PDF form to show you how to Test the campaign. No matter how you create a campaign, get into the habit of Testing EACH AND EVERY ONE.

So let's start with logging into your AIOP Back office and under ToolBox/Autoresponder,

1. Click on <Go> for your Campaign. (in this example, the R4R campaign.
2. Once you see at the top of the page that the correct campaign is active,

Active campaign: R4R-AIOP-Team.grampa@AIOP Response

To edit your campaigns, set the language for the Opt-in mail or to set a custom Opt-in confirm and welcome page.
Activate the campaign first (go) then click [here](#) to edit.

Roitate4Referrals
This is a shared campaign. These are the duplicated pages for this campaign.

<https://aiopsplashbuilder.com/splash1.php?id=38664&cp=74520>

To update the follow ups to the last version,
click [premade campaigns](#) and click the [reload button](#) for this campaign.

Your Lead Capture Page (LCP) is <https://aiopsplashbuilder.com/splash1.php?id=.....>

1. Copy and paste it into your browser to go to YOUR personal LCP to get prospects into your campaign

It will look like this:

Scrolling down you will see the rest of the LCP.

By the way, you can create your own LCP's and have a variety of them to test out the effectiveness of changes in the Splash Page.

<https://Ez-As-ABC.com/StartAIOPSplashPage.pdf> to learn how.

All Splash pages made by the AIOP Splash builder are hosted on the AIOP hosting so

you don't even have to host them on your own hosting.

I have included instructions on how to find free background images you can use for your backgrounds

And for your information, It is always good to change up your splash pages every once in a while to give the prospects a new, different slant on what you are offering.

Start your Campaign Testing

1. Put your name and email in the form (Note that I put the form in the top half of the LCP so that the prospect doesn't have to scroll down to find how to get more information. The more actions you require the prospect make, the less likely, they will give you their name and email

When you enter Your name and email, you will receive:

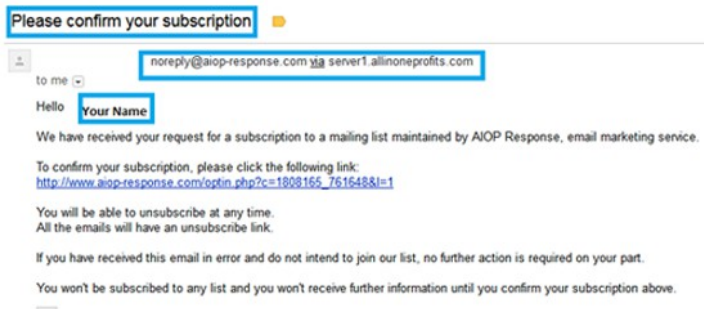

THANK YOU !

**Your request has been received and a confirmation email has been sent to your email address.
Please check your **Inbox!****

**If you don't see the email in your inbox,
please check your **Spam** folder.**

**After confirmation please whitelist
noreply@aiop-response.com
so you won't miss our emails.**

1. Open your email account and be sure to check your spam folder if you don't see the confirmation message. That message will have the Subject line "Please confirm your subscription to"
2. Open the message and click on the confirmation link.

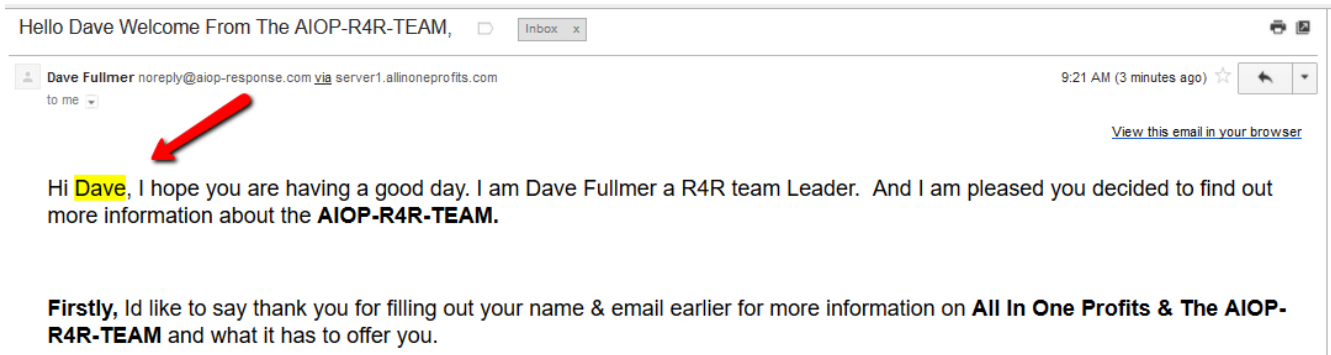

You will see:

Thank you!

You have been subscribed!

Please whitelist noreply@aiop-response.com
so you will never miss our emails.

1. Go back to your email account and open your Welcome message. Remember, I may have been put in your spam folder and if it was, move it to your inbox.

1. The first thing to check is to make sure Your Name is in the Salutation. The code in your autoresponder `[[fixfirstname]]` converts to the name of your prospect. Since you are filling out the form, you are your own prospect in this test.

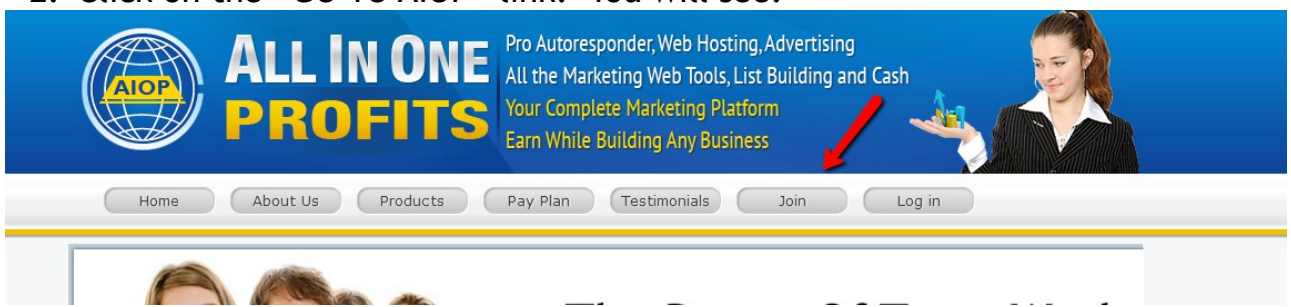

For anyone trying to be successful with affiliate programs and mlm opportunities they need a list or to start building one before even finding a business opportunity. **THATS A FACT!**

You can either start right now, or fail until you realise **YOU NEED ONE!**

[GO TO AIOP!](#)

AIOP also offers a free built in professional splash page builder that AIOP host on their servers for you. You can create stunning splash pages in a matter of minutes and link it to your pre written messages in the autoresponder, Then, simply send traffic to the splash page and just watch your subscribers start joining your list and reading the emails that you have pre-written in turn you will get sign-ups & sales to your business opportunities or products.

2. Click on the <GO TO AIOP> link. You will see:

3. Click on the <Join> button If you have created the rotator from the instructions at <http://Ez-As-ABC.com/SetupAIOPRotator.pdf> . Your referral link will show up at the top of the signup page. After you get referrals and add them to your rotator, that referral link will rotate between all the id's .
4. If your name or one of your referrals name does not show up at the top of the

signup page, something is wrong with your setup.
5. Scroll down to the bottom of the page:

[WATCH VIDEO HERE:](#) 

Amazing Right??

Seriously what are you waiting for il see you on the inside.

[JOIN AIOP TEAM BUILD HERE](#) 

To your success

Dave Fullmer 

dcfullmer1937@gmail.com 

1. Click on the <WATCH VIDEO HERE> link to make sure the link is working.
2. Click on <JOIN AIOP TEAM HERE> to see if someone in your rotator is at the top of the sign up form.
3. Note that YOUR name should be in the signature
4. Note that YOUR email address should be shown.

If everything checks out your campaign is ready to promote.
